

Early Years ECA Description Term 3 / 2020-21

Role Play

Ms. Mica

In Role Play we will let our imaginations run wild. We will set up a range of different role play areas to dress up and play. Role play is an important aspect of children's play, aiding many areas of development; imaginative skills, language skills and lots of fun!

MUAY THAI

Coach Nu (Outsourced)

Muaythai Kids is the combination of Muay Thai & Exercise which will focus on basic Muaythai techniques (except using elbows, which is dangerous for children) and self-defense art. We will start with warm ups, then go on to running, games, circuits, using defences against attacks and then warm down. The benefits of Muay Thai include: learning to set and achieve goals, increase self-esteem, encourage non-violent conflict resolution and developing teamwork skills.

The benefits of Muay Thai training do not end in the gym! The boost in confidence, increased fitness level and new cooperation skills will

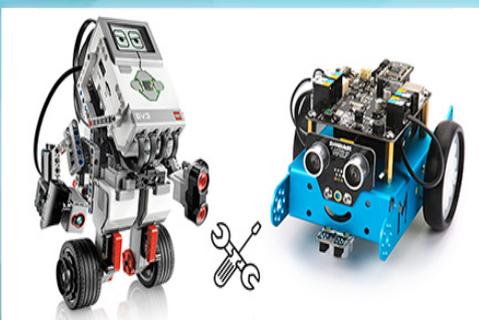

also help your child navigate the academic and social aspects of school, affect their behaviour at home and have an all-around good influence on them as they develop into an adult.

CONSTRUCTION CLUB

Mr. Nick

Each week we will provide students with a variety of materials to explore and build constructions based on weekly themes. Students will practice cooperative tasks, fine motor skills and problem solving. They have the chance to complete challenges, record work and complete long term projects. For a chance to get creative, come and join construction club!

ERC JUNIOR ROBOTICS

iZone (Outsourced)

Our Robotics program/club is all about having fun while constructing robots structure, Programming robots, engaging to Lech lab, science and having an extreme fun through the STEM concept. Students will be introduced or deepen their knowledge with software and materials such as EV3 MindStorms, NXT MINDSTORMS, WEDO, M-BOT, ROBOT KITS, MBOX, SOLAR SYSTEM BOT.

MINDFULNESS

Ms. Cha Cha

In this mindfulness ECA we will explore different ways to help our minds and bodies relax after a busy day at school. This will include exploring different yoga techniques, breathing exercises, nature walks, mindful movements, and some art.

Early Years

ECA Description Term 3 / 2020-21

OUTDOOR SPORT AND GAMES

PE Department

This ECA will focus on exploring different games with emphasis on fine and gross motor skills.

MOMATH

MoMath (Outsourced)

This club will teach the fundamental techniques and skills needed in order to help children understand and love mathematics more. We will start by approaching maths with adding and subtraction from images and provide fun activities and games in order to help children understand and truly enjoy mathematics. From this club children will be able to calculate maths faster as well as love learning maths

THAI ART

Kru Nim

Students will learn how to draw different types of Thai art. They will study outlines of different drawings and will also be encouraged to experiment designing their own Thai art.

FUN SCIENCE EXPERIMENTS

E-Science

We're teaching science for the kids with experiments. All of our lessons are student centered. Courses emphasized on learning by playing and learning by doing. The E-Science curriculum has various experiments and activities to suit each student's needs.

The lessons will be based around a science topic and the students will explore it through experiments and practical activities. We aim to develop observation, practical and critical analysis skills. Students will get a toy or a project back home after finishing each lesson.
